PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience building full-stack applications, RESTful APIs, database workflows, and third-party integrations using Next.js, TypeScript, Node.js, and Supabase. Skilled in developing scalable features, improving application reliability, and collaborating with cross-functional teams using modern development and AI-assisted tools. Seeking to contribute strong problem-solving, backend, and full-stack development skills to a growth-focused technology team.

WORK EXPERIENCE

Software Developer - Full Time

July 2026 - Present

Leveric Pty Ltd

Pampanga, Philippines

- Develop production-ready application features using Next.js, TypeScript, and Supabase, enabling reliable user workflows and consistent access to real-time application data.
- Architect database schemas, authentication flows, backend functions, and API integrations in Supabase, improving data organization, application security, and frontend-to-backend communication.
- Collaborate with developers and stakeholders through Linear while using Codex to support implementation, debugging, and code refinement, accelerating task completion and improving overall code quality.

Full Stack Developer - Part Time

May 2026 - Present

SATEZO OPC

Pampanga, Philippines

- Build responsive full-stack application features using Next.js, React, Node.js, and REST APIs, delivering functional user experiences aligned with business requirements.
- Implement backend services, API endpoints, and data-handling workflows, enabling efficient communication between application interfaces, databases, and third-party services.
- Diagnose and resolve frontend and backend issues while enhancing existing code, improving application stability, maintainability, and feature reliability.

Backend Developer Intern

February 2026 - April 2026

Nola Web Solutions

Pampanga, Philippines

- Engineered RESTful APIs and Laravel-MySQL backend workflows for internal operations and client-facing applications, streamlining data processing and supporting reliable system functionality.
- Integrated GoHighLevel with PayMongo for checkout creation, payment verification, webhook processing, and transaction synchronization, enabling automated and accurate payment workflows.

PROJECTS

Twitch Insights | *React, Tailwind CSS, Flask, MongoDB, RoBERTa NLP*

- Created a live Twitch chat sentiment analysis platform that processes real-time messages and presents audience insights through dashboards, charts, reports, and word clouds.

Gentlemen's Quarters | *React, Express.js, Tailwind CSS, TypeScript, PostgreSQL, Drizzle ORM, PayMongo*

- Engineered a full-stack barbershop booking and service catalog platform with secure online downpayments, account-free scheduling, and self-service rescheduling through protected email links.

Penny Wings | *TypeScript, React, Tailwind CSS, Supabase, TanStack Query*

- Developed a finance management platform with user authentication, budget monitoring, transaction management, financial analytics, and AI-assisted insights to support personal finance tracking.

NOLA PayMongo | *Laravel, Tailwind CSS, MySQL, PayMongo, GoHighLevel*

- Integrated GoHighLevel with PayMongo to support checkout creation, payment verification, real-time webhook updates, transaction synchronization, and refund processing.

Personal Portfolio | *Next.js, Tailwind CSS*

- Developed a responsive professional portfolio website that highlights selected projects, technical skills, and work experience, while providing an organized overview of professional background.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, PHP, SQL, Python
- **Frontend:** React, Next.js, Tailwind CSS
- **Backend:** Laravel, Express.js, Node.js, Flask
- **Databases:** MySQL, MongoDB, PostgreSQL, Firebase, Supabase, Neon
- **AI & Automation:** n8n, GoHighLevel, Claude Code, Codex, MCP, Webhooks, Oauth 2.0, Third-Party Integrations
- **Tools & Platforms:** Git, GitHub, Hostinger, Google Cloud Platform (GCP), Linear, Slack

CERTIFICATIONS

- Cloud Computing Fundamentals | JavaScript Essentials 1 | Introduction to IoT and Digital Transformation | Technical Support Fundamentals

EDUCATION

Bachelor of Science in Information Technology

Pampanga State University (former Don Honorio Ventura State University)

Magna Cum Laude

2022 - 2026
